

Forhad Ahmed Khan

Software Engineer & Founder

Sylhet, Bangladesh · hi@forhadkhan.com

GitHub LinkedIn X WordPress.org

Software engineer and founder from Sylhet, Bangladesh. I work across PHP/WordPress and React/TypeScript today, with a Django REST / React / Next.js background from building a full-stack platform solo. At WPAnchorBay I ship commercial WooCommerce plugins end to end (ProductBay, CartBay); before that I founded PRAGMACS, my registered software studio. Now moving toward AI automation and agentic systems. B.Sc. (Engg.) in CSE; Masters in Information Technology at SUST, expected 2026.

EXPERIENCE

WordPress Plugin Developer · [WPAnchorBay](#)

2026 – present

- Building and maintaining ProductBay, a WooCommerce B2B/wholesale product-table plugin — free on WordPress.org with a commercial Pro edition.
- Own the full lifecycle solo: PHP backend, React/TypeScript admin via @wordpress/scripts, the WordPress.org review submission, VitePress documentation, and support.
- Shipped CartBay — abandoned-cart recovery for WooCommerce — as a second WPAnchorBay plugin on WordPress.org.
- Building toward AI automation tooling for WooCommerce stores (n8n + LLM workflows).

Founder & Sole Engineer · [PRAGMACS](#)

2023 – present

- Founded a registered software studio and built EMIS, a multi-role education management platform, as the sole engineer: Django REST, React, PostgreSQL, JWT auth — engineered to production standards.
- Owned product, budgeting, and operations end to end; wound down the EMIS commercial push in 2025 and documented it as a public post-mortem. The studio remains the umbrella for my independent work.
- EMIS source is public on GitHub (github.com/forhadkhan/emis); finishing it with a hosted live demo is on the current roadmap.

SELECTED PROJECTS

- ProductBay** · 2026 – present — PHP, WordPress, WooCommerce, React
- PRAGMACS & EMIS** · 2023 – present — Django REST, React, PostgreSQL, JWT
- LiveMarkup** · Ongoing — JavaScript, HTML, CSS, KaTeX
- LiveMarkdown** · Ongoing — JavaScript, KaTeX, Mermaid, Zero-backend

EDUCATION

Masters in Information Technology
Shahjalal University of Science and Technology · expected 2026

B.Sc. (Engg.) in Computer Science & Engineering
Metropolitan University · 2023 · CGPA 3.66/4.00

IELTS Overall 7.5 — L 8.5 · R 7.0 · W 6.0 · S 7.5 (Dec 2023)

SKILLS

Core

PHP · WordPress · WooCommerce · JavaScript · TypeScript · React

Frontend

React · Next.js · Astro · Tailwind CSS · @wordpress/scripts

Backend

Django · Django REST · PostgreSQL · MySQL · REST APIs · JWT auth

Tooling & AI

Git · Vite · VitePress · Linux · n8n · LLM automation
